## ABOUT THE PROGRAMME

Team Programme is designed to help students with mild to moderate learning difficulties transition from education to independent living and employment.

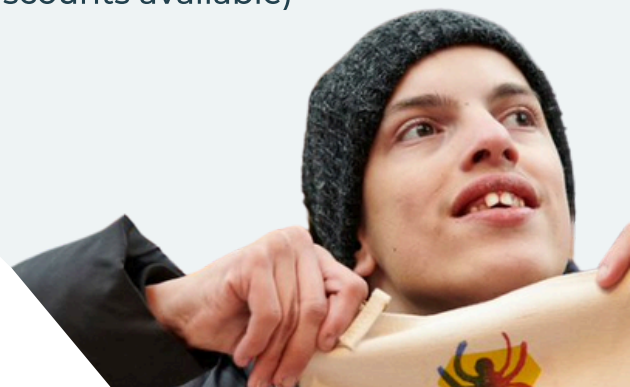

Supported by £10m Product and Public Liability insurance, students create and run a company over an academic year, developing confidence and life skills.

Each student takes on a job role in the business such as Management, Finance, Marketing, and Sales. With support from educators and a Young Enterprise representative, they gain experience managing money, open a Card One Money business current account, engage with customers, and present to an audience.
