HOW TO USE THE CHALLENGE TEACHING MATERIALS?

To support with the delivery of the Challenge, we've provided a lesson plan for children aged 4-7. This lesson is designed to help children explore the environmental and financial benefits of conserving energy and encourage them to share this learning with their friends and family.

The lesson culminates in the choice of **three challenge entry options**. You can choose the challenge entry that best appeals to your children! We're really looking forward to seeing all your wonderful creations!
