

NO TIME LIKE THE FUTURE

Young people are the future – of our society, economy and country

THE CHALLENGE

49% of young people say their education has not prepared them for the world of work. Tackling social mobility in the UK could be worth **£39bn** to the economy as a whole

THE STRATEGY

No Time Like the Future is a strategy with 3 goals:

1. Increase access to opportunities
2. Make sure no young person feels left behind
3. Activate long-term sustainable impact

OUR VISION

That every young person has the opportunity to:

1. Learn the vital skills needed to earn and look after their money
2. Develop an enterprising mindset
3. Make a valuable contribution to their community and society

THE GOAL

By 2023, Young Enterprise aims to:

1. Create 1 million opportunities to help young people activate their ambition
2. Mobilise 40,000 volunteers, teachers, and alumni
3. Secure £16 million in funds

GET INVOLVED

We need your help to:

1. Partner with more individuals, businesses and foundations
2. Recruit volunteers from diverse backgrounds to share their journeys
3. Empower more teachers to embed financial and enterprise education

Help us make it happen.
