Briefly explain your creation and how it could help people look after their money and their health and wellbeing?			
My idea is bright and eye catching and gives good ideas on how to look after your money and yourself.			
What did you learn about health and wellbeing from taking part in the Young Money Challenge?			
It made me think more about what I was eating. I felt a lot better in myself eating healthy food and getting a good night sleep			
What did you learn about managing your money from taking part in the Young Money Challenge?			
I've learnt more about the value of money. I also learned that a lot of healthier food is cheaper than buying fast food and keeps you fuller for longer. I was not as keen to spend my own pocket money at the shops I had earned doing jobs helping my parents out.			
What advice would you give people to help them look after their money and their health and wellbeing?			
Have a weekly limit on your spending. Make time for yourself and spend time with people which make you happy.			
If your entry was to win the Young Money Challenge, how would you spend your prize voucher in a way that helps you look after your money and your health and wellbeing?			
I would put most of it into my bank account and put a small amount towards a scooter I'm saving up for.
