

THE OPPORTUNITIES HUB

What is it?

The Opportunities Hub is an exciting online platform created by Young Enterprise to help young people aged 13-24.

We want to ensure as many young people as possible are ready and prepared for work and adult life. The Opportunities Hub has been created as a **next step for people who have participated in one of our programmes**. It helps young people to continue building their skills, confidence and networks.

With over 30 carefully selected live opportunities, we have made it easy for young people to find and sign up for activities and resources that are useful and relevant.

young-enterprise.org.uk/opportunitieshub

Through the Opportunities Hub, Young Enterprise participants can find out more about:

- Setting up a business
- Work experience placements
- Training courses
- Careers advice and guidance
- Resources on mental wellbeing and resilience
- Voluntary work
- Apprenticeships

About the Opportunities Hub

The Hub provides a single point of access to a wealth of information, support and useful links.

It helps young people to build on the experiences they have gained through our programmes, enhancing their skills and offering ways of putting their learning into practice.

Key Features

- Designed for young people aged 13–24 years old who are currently taking part or have taken part in a Young Enterprise programme.
- Offers a range of quality assured activities and resources that have been selected by us as being relevant to continue building skills, confidence, and networks.
- Allows users to take a self-led pathway through the activities and resources on offer based on their unique needs.
- Once registered, young people will have access to the resources and activities on the Hub until they turn 25 years old and will be able to stay in touch with Young Enterprise throughout this important time as they enter work and adult life.
- Opportunities on the Hub are free for young people, subject to eligibility rules.
